

BeCause

The Sustainability Data Hub for Travel

The most simple, swift & synergistic way
for businesses to manage their sustainability work- & dataflows,
so they can supercharge their positive impact on people, planet & profits.

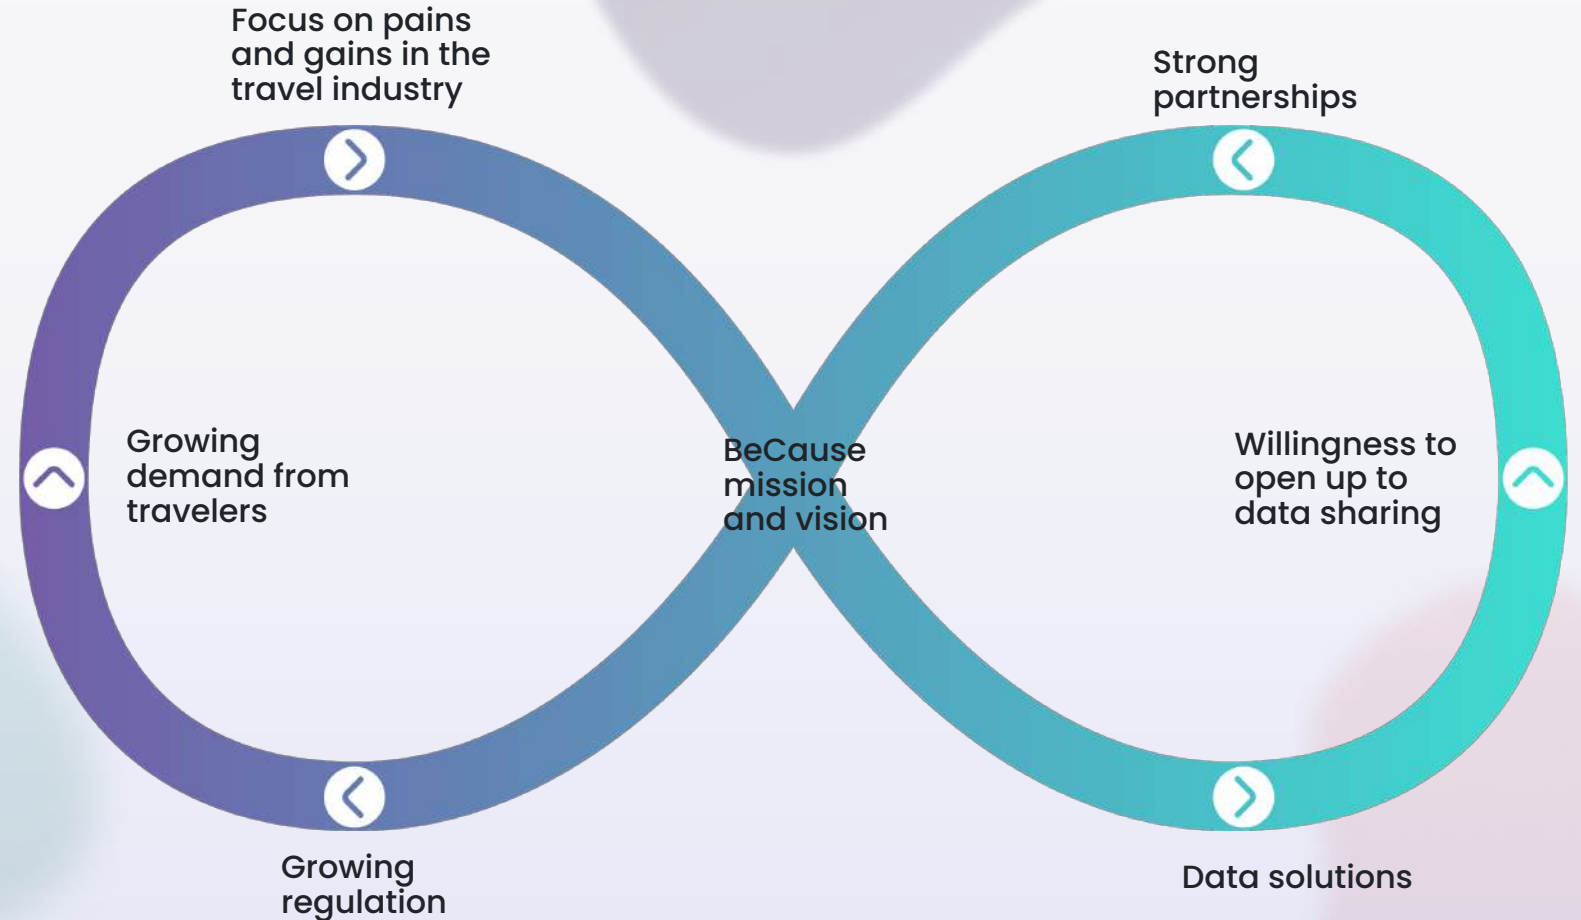

Jahanzeeb Ahmed – Dane/Pakistani

- CCO at BeCause for 4 years
- Responsible for all commercial aspects of BeCause; Marketing, Sales and Customer Experience
- Driven by understanding the pain and challenges of the different actors within travel and using that as fuel to ultimately drive the travel and tourism industry in a more sustainable direction.

Things are happening

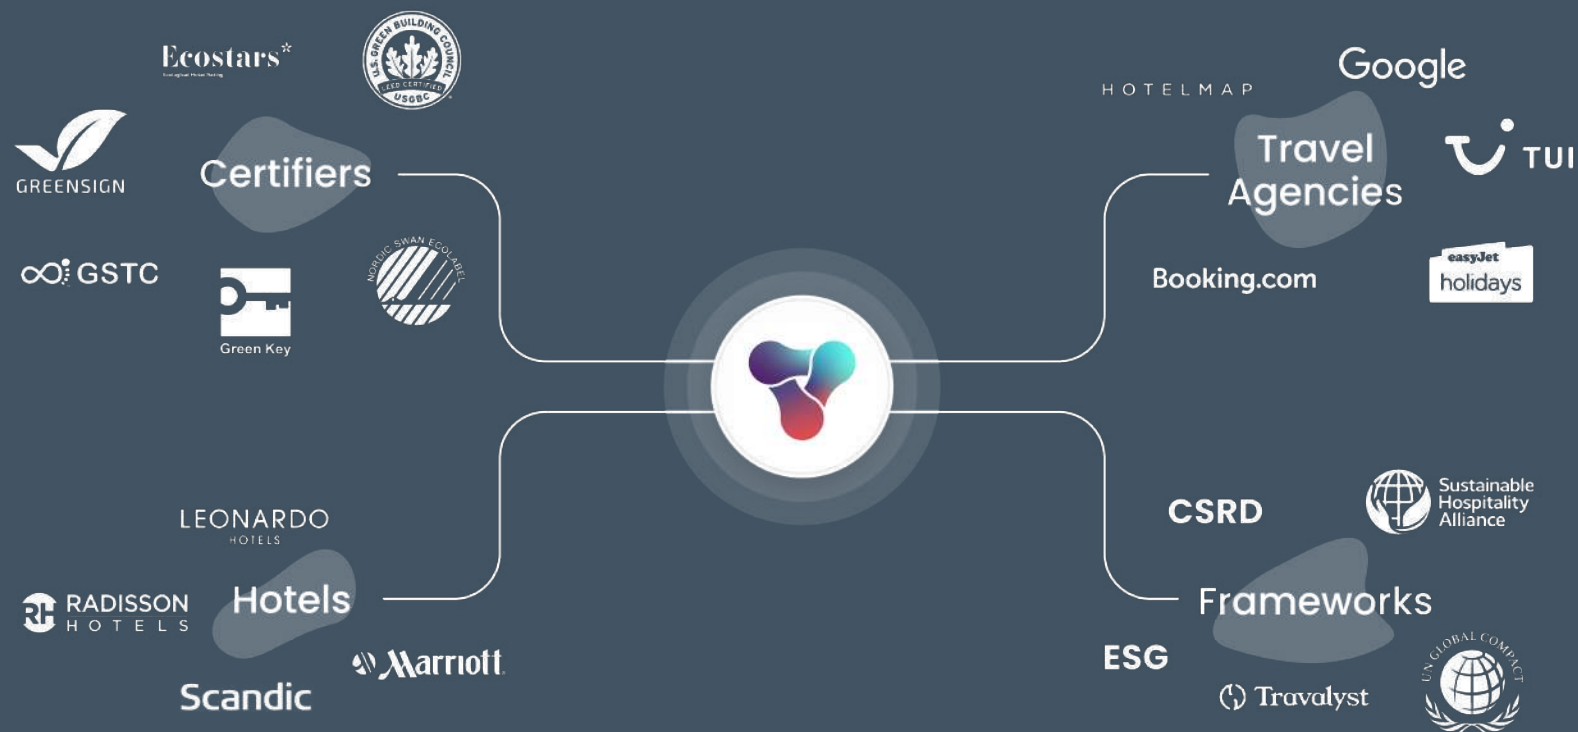

How the **industry** is **gathering** to put sustainability on top and how **tech** solutions and an open approach to **data sharing** has accelerated that.

The Sustainability Data Hub for Travel

Who do we help

Hotels

Booking platforms

Certifications

Destinations

Who do we help and with what

Who do we help and with what

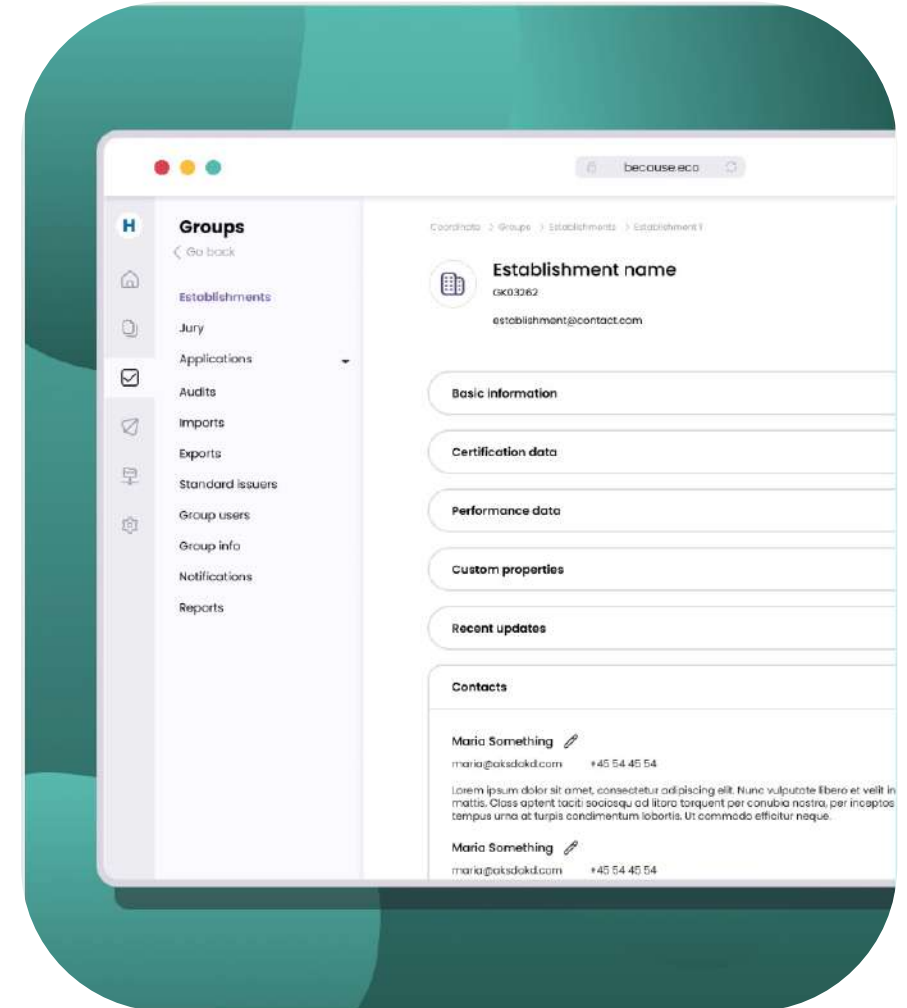

BECAUSE FOR TRAVEL AGENCIES

Get real-time sustainability data on hotels

Showcase sustainability information on your accommodation supply in your marketplace and assist travelers in making informed decisions based on trustworthy data from third-party partners such as certifications.

Booking.com

WebBeds

easyJet
holidays

TUI

Google

hotelbeds

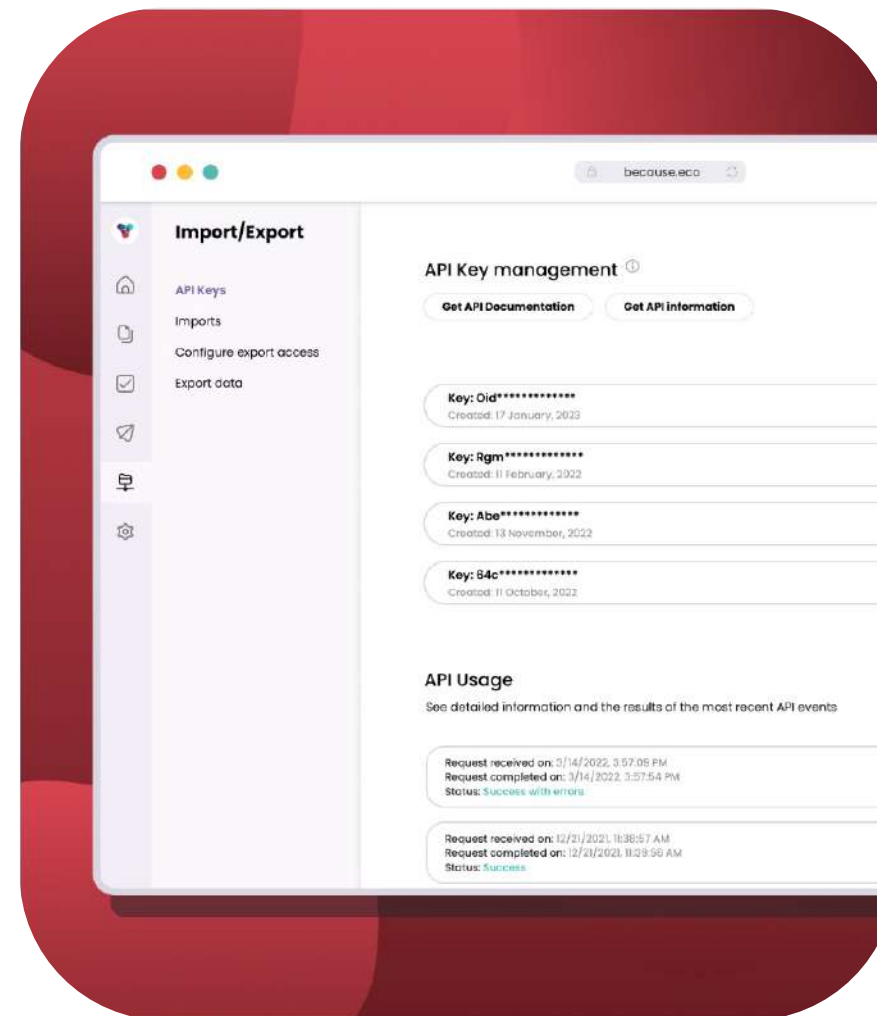

Tripadvisor

BECAUSE FOR CERTIFICATIONS

Automate your manual certification processes and automatically share the information with travel agencies

Efficiently distribute information about hotels that have received your certification to multiple travel agencies through a single platform.

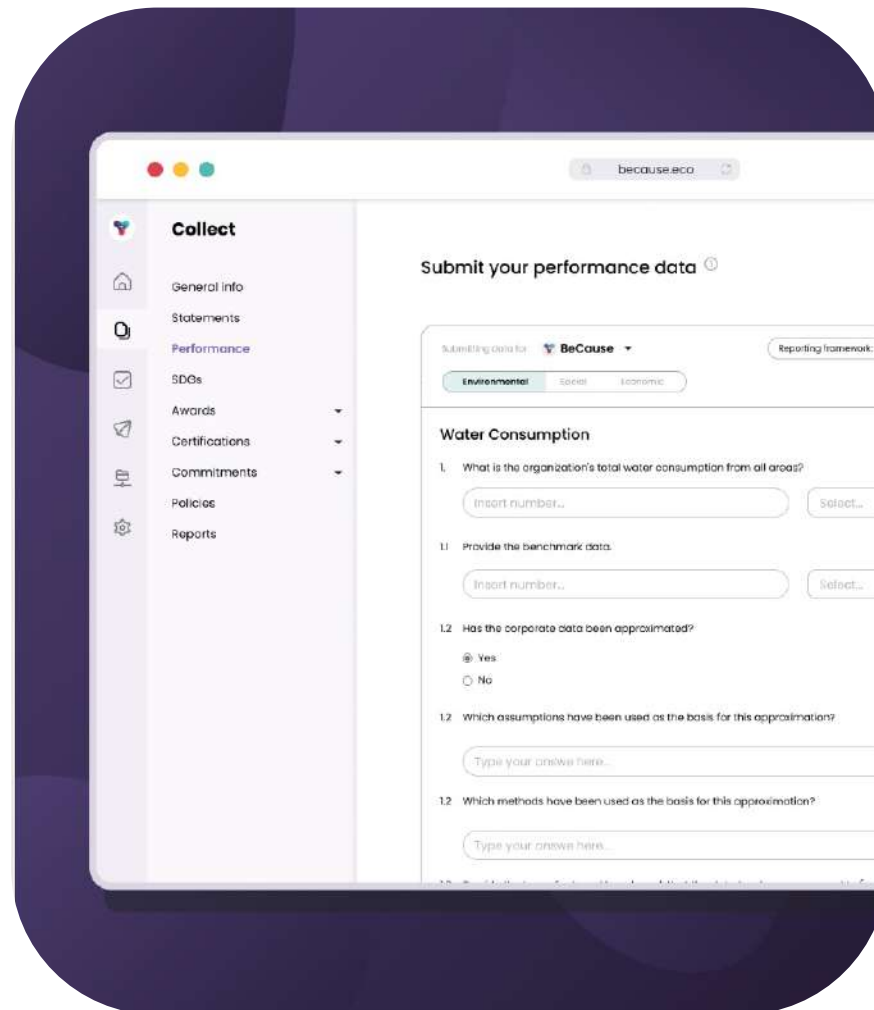

BECAUSE FOR HOTELS

BeCause makes sustainability management flow simpler, faster, and cheaper for hotels.

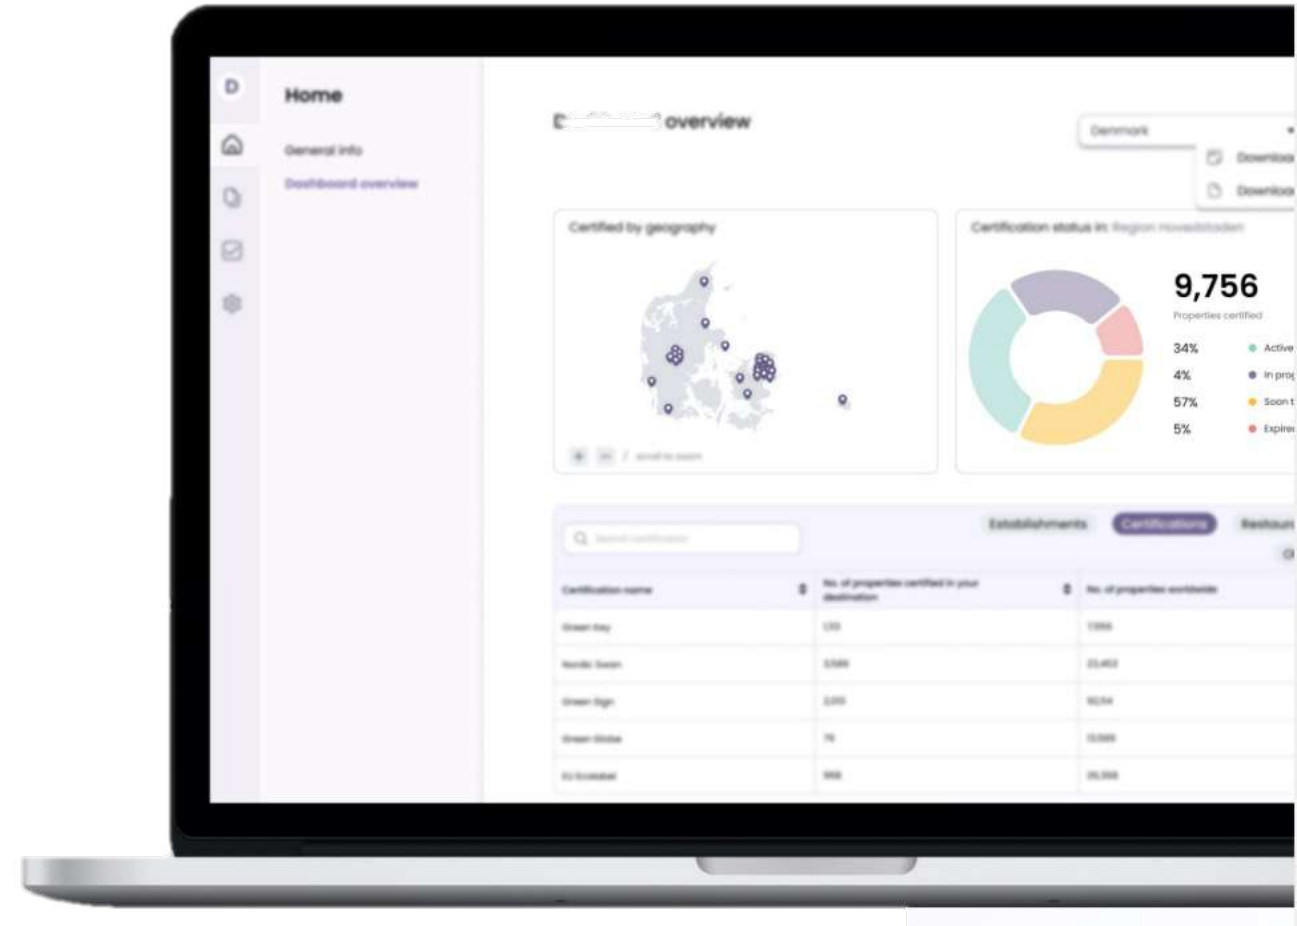

Use our ecosystem to manage your property sustainability data, create and report in multiple frameworks, showcase your certifications on OTAs, and much more.

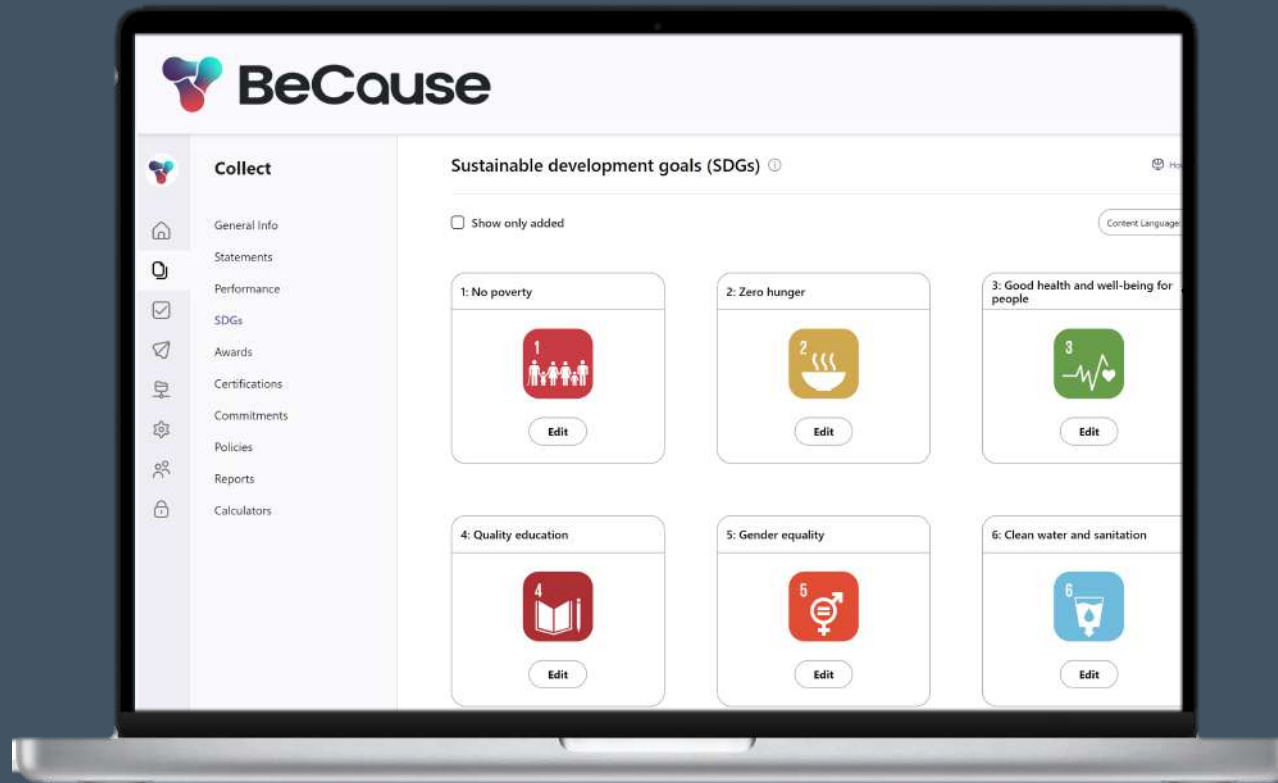

With BeCause, destinations can gain an overview of the certified properties on their destination

How many hotels and beaches at your destination have a sustainability certification? What actions are they taking to increase level of sustainability in their operations and how does that position your destination in the global sustainability race?

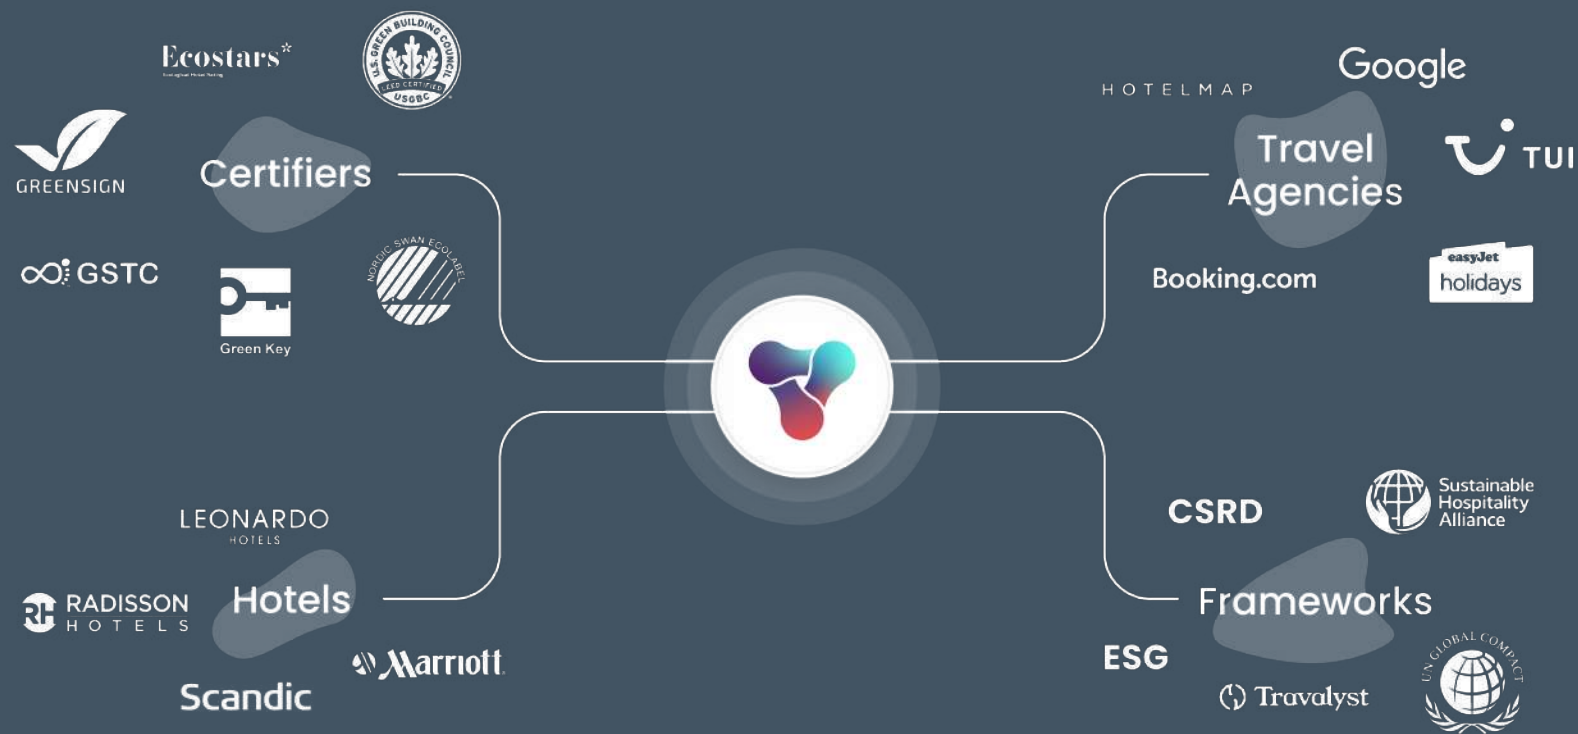

All in one platform

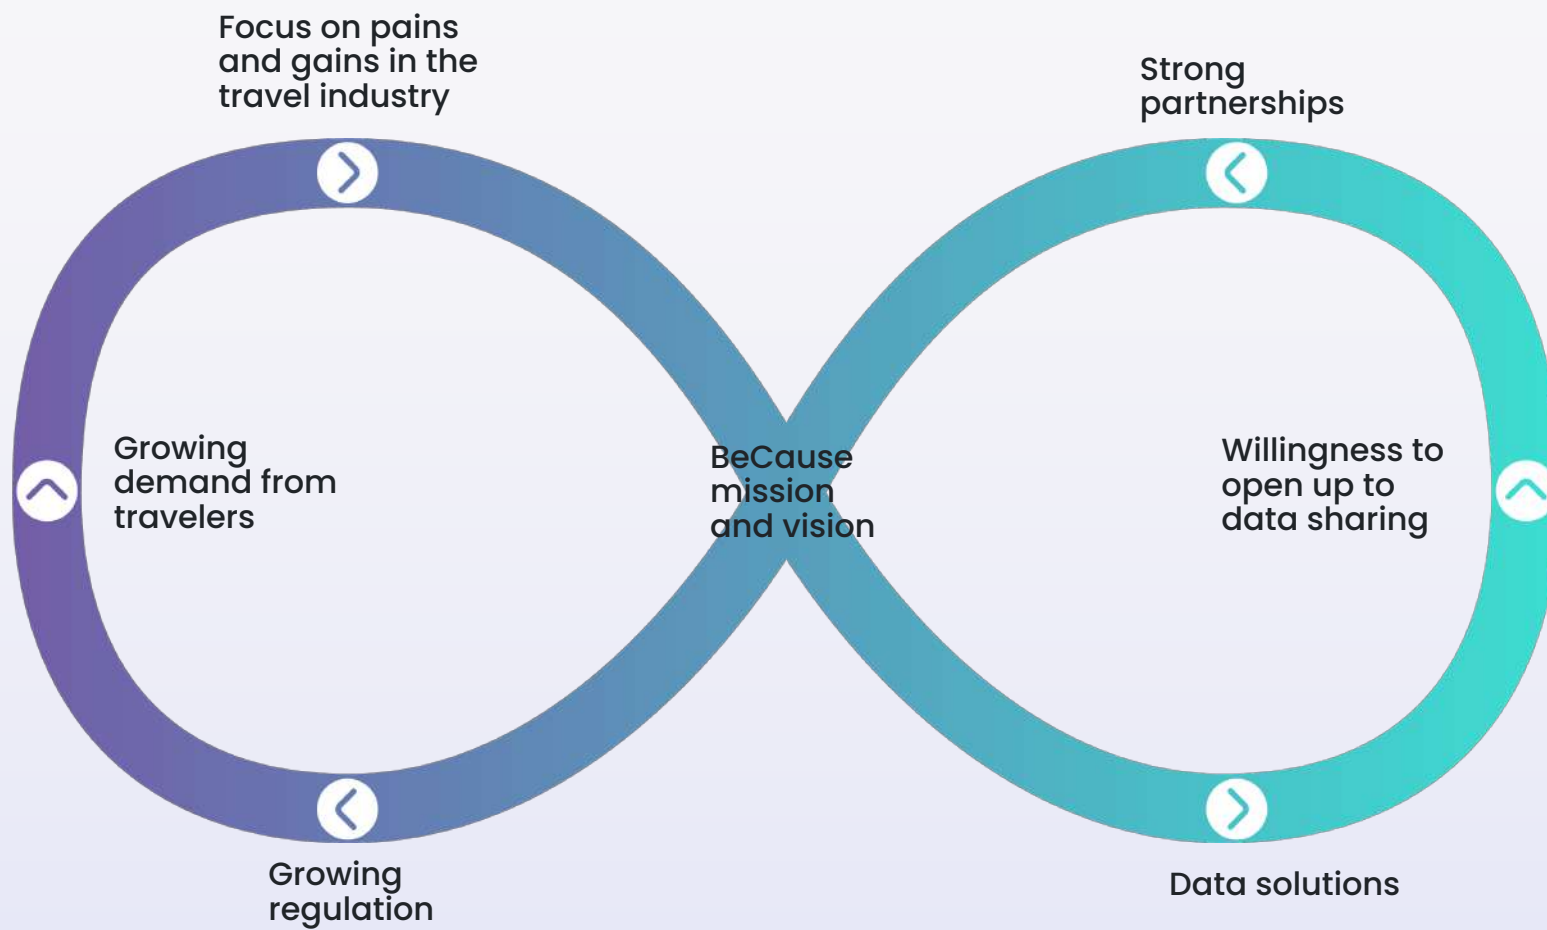

because.eco

...at the center of action

because.eco

The centralized hub trusted by the largest players in the industry

And it's only the beginning

With an open approach to data sharing, strong partnerships, an AI driven roadmap and an exponentially growing amount of data the path to revolutionizing sustainable operations in travel is paved for us all.

Thank you for listening!
